

# EXITFLEX®

## SUCTION FILTER ASSEMBLY

Can be used with almost any medium that needs to be filtered, such as solvent, paint, water, oil and air. Designed for easy installation and quick change of screen filter without any tool. Can be inserted through a two inch bung opening of a 55 gallon drum. Is operational with liquid levels of only 1/4" due to the bottom location of the suction opening. Manufactured of reinforced polyamide for durability and easy clean up.

Part No.	Cap Color	Connection
36-450	Green	1" NPSM (F)
36-452	Orange	3/4" NPSM (F)
36-453	Black	1/2" NPSM (F)
36-460	Red	Seal
